More Than a Thermal Hotel

Sinnada was designed to slow down, create a new balance, and establish a renewed connection with life. Combining the feel-good power of thermal waters with a tropical atmosphere, Sinnada offers a new quality experience to be lived twelve months a year through wellness, comfort, and harmony with nature. At Sinnada, thermal is not a routine. Wellness is not a trend. Luxury is too real and too quiet to be ostentatious.

For families, couples, and all guests seeking more than a holiday, Sinnada means deeper breathing, better sleep, and feeling renewed. This is not an escape from life; it is a return to what is truly valuable.

Welcome to Sinnada.

“Far Away” Is Very Close

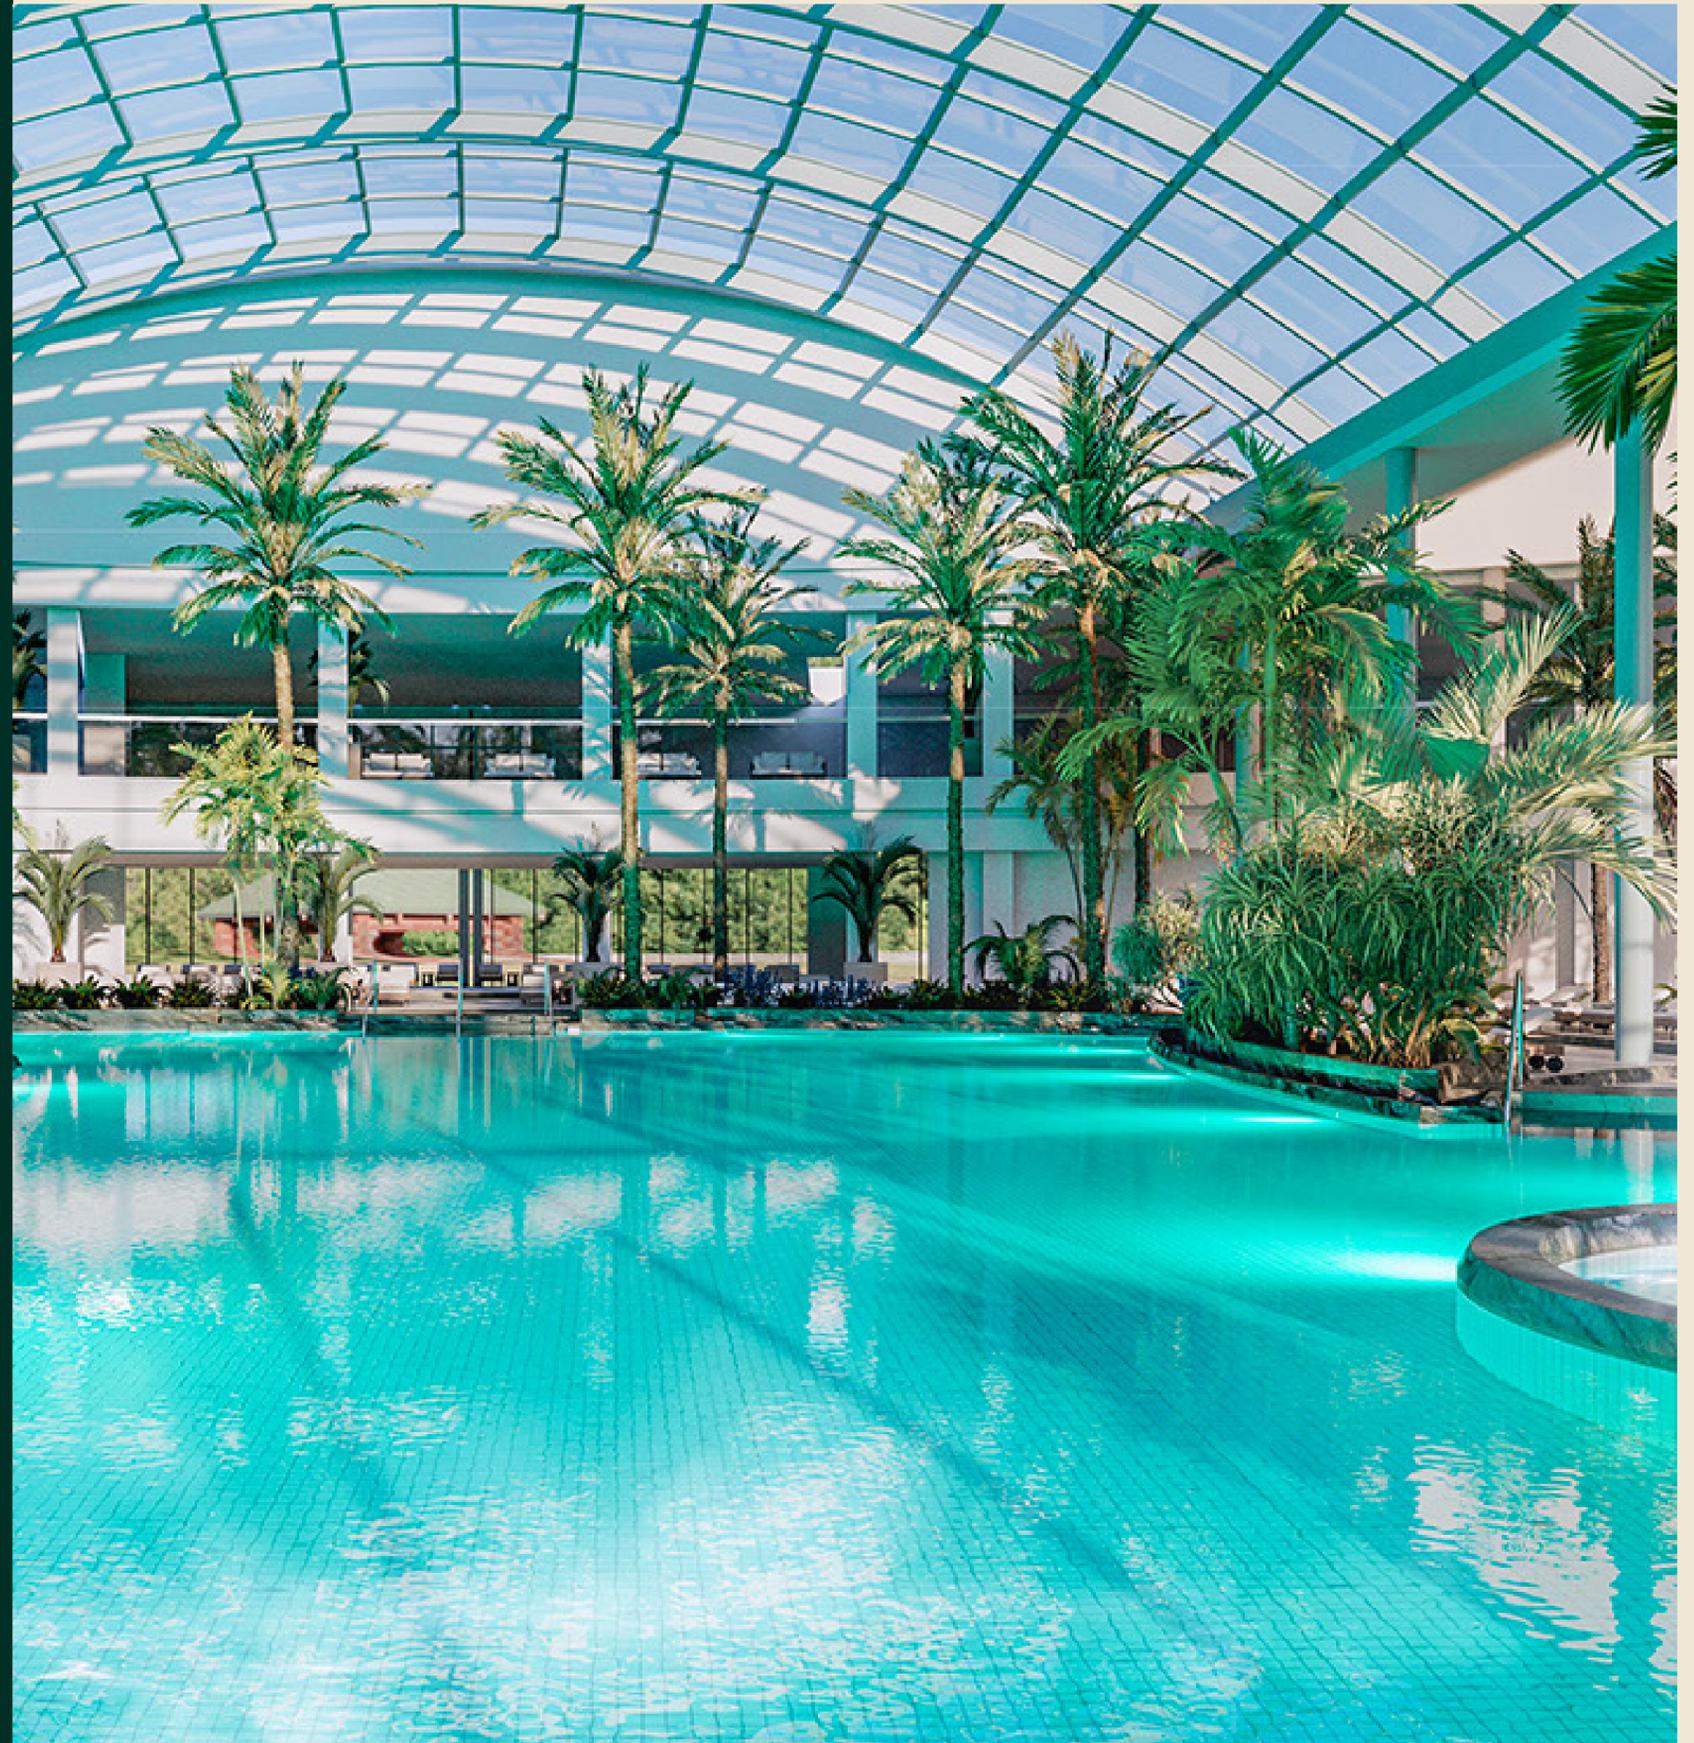

Located in the center of Afyon, Sinnada offers deep mental purification after a short journey.

You can reach us comfortably and quickly from large and tiring cities and distance yourself from daily life as if you were in a fairy tale.

Our thermal richness stands beside us like a gift; between us and the city lies a thick layer woven with nature.

You can arrive effortlessly and depart stress-free. Like every detail, this ritual is designed for all four seasons.

A short refreshment break, a wellness-crowned renewal, weddings or ceremonies, or crowded new beginnings... Sinnada is close to you, beyond expectations.

“Comfort Collection”

The Sinnada accommodation experience is offered in 3 separate segments.

“Comfort Collection” is the foundational experience layer offered in all our rooms, delivering complete comfort and functionality.

Thanks to the Q Line smart solution line, your needs are as close as a single button or a message.

It is a comfortable, simple, and balanced Sinnada experience where every detail is considered for our guests' comfort.

Q Assistant

Personalized Sinnada Experience

For Signature & Prestige Collection Guests

This is a companionship where your holiday is designed according to you.

Anticipating your needs before you even request them, responding carefully to your preferences throughout your stay, Q Assistant ensures that every detail at Sinnada is exactly as beautiful and timely as you imagine — that is, just before you say it.

Sinnada Gastronomy

Afyon gastronomy represents a deeply rooted and characterful culinary culture shaped by strong, traditional, and local products such as poppy seed, clotted cream (kaymak), sausage, and cured beef (pastırma), where meat is masterfully used.

The tradition formed through centuries brings together simplicity and craftsmanship, carrying the style and memory of Anatolia.

This rich heritage is also the inspiration source of Sinnada cuisine.

Our kitchens offer guests a gastronomic experience that is both familiar and refined through local flavors and modern touches.
